PDREP Production Publish for 01 August 2021
PDREP-AIS Version: 6.0.21.40

(Note: The following software changes were released in PDREP-AIS Version: 6.0.21.40 on 01 August 2021)

Customer Service Request #	Module	Title	CHANGE NARRATIVE
2001375	CAR	Verify CAP Without Any KTR Input	Updated CAR such that the user must have data in the KTR Response section before Verification/Validation information can be saved.
2100884	QALI/LOD	Add New Delegation Type to Create	Added new types: "Delegation" and "Reimbursable" to the Create LOD form
2100923	QALI/LOD	Worklist Search Parameters	Updated the worklist to search properly on the selected UserID, Region Code, and Team Code as well as the Date Range.
2100952	QALI/LOD	Phase 2 RCN Updates	Updated the QALI/LOD RCN format to display leading zeros, updated the sub-tier RCN/DCN format, prevented hyphens in the RCN from saving to the database, as well as updated logic such that Parent records cannot be closed until all Sub-Tier records are closed
2100969	QALI/LOD	Worklist View Access	Fixed the worklist such that the User Code and Team Code fields pull all records.
2100980	QALI/LOD	Frequency/Intensity of Surveillance	Fixed the Frequency/Intensity dropdowns to display the proper values.
2100982	QALI/LOD	QALI Worklist Table Update	Updated the format of the QALI/LOD Worklist to display all records in a single table and added a Status field to filter records.
2101012	QALI/LOD	QALI Status	Removed a duplicate Status field from the QALI form
2101018	QALI/LOD	Transfer QALI/LOD Access	Updated permissions for Supervisor, Contract Management Office, and HQ-PIR to allow for transferring records.
2100961	SDR	Action Point Closing SDRs via Recently Accessed Records	Updated the link used for SDRs in the Recently Accessed Records on the Main Menu to send the user to the SDR base page vice the SDR Originator page.
2100007	SP	Add Record Locking	Added Record Locking functions to the Surveillance Plan module to prevent users from saving over each other.
2101025	Virtual Shelf	Virtual Shelf File Download	Updated user access roles in Virtual Shelf
