FOREWORD

This guide does not replace or amend any Department of Defense (DoD) instructions, regulations, and/or policies. Its purpose is to assist users with Product Data Reporting and Evaluation Program (PDREP) – Automated Information System (AIS) Product Quality Deficiency Report (PQDR) application’s functionalities only. The PDREP PQDR is designed to work in concert with existing DoD policy and processes for submitting PQDRs. Proper use of the PDREP application should facilitate compliance with DoD PQDR policy.

Refer to the appropriate PQDR instructions and manuals for information about DoD PQDR program requirements.

INTRODUCTION

This document is intended to guide DoD personnel in the use of Product Data Reporting and Evaluation Program – Automated Information System (PDREP-AIS) and in the process of entering new Product Quality Deficiency Reports (PQDRs).

The PDREP application is accessible via the Product Data Reporting and Evaluation Program home page: <https://www.pdrep.csd.disa.mil/>

User access and login procedures can be located in the PDREP User Access and Login Procedures guide. First time PDREP users will need to submit a User Access request form, available on the NSLC home page. Click on [User Access Request Form](#) to download the form. Follow the directions on the form to submit the request for access to PDREP.

Requests for changes or improvement to any PDREP application or any of the NSLC Portsmouth web pages should be submitted to:

Customer Support Desk

Commercial Phone: (207) 438-1690 / DSN 684-1690

FAX: (207) 438-6535, DSN 684-6535

Email: webptsmh@navy.mil

Mailing Address

Naval Sea Logistics Center Portsmouth

Bldg. 153, 2nd Floor, Portsmouth Naval Shipyard

Portsmouth, NH 03804-5000

Online in the PDREP Application

If already a PDREP User, log into PDREP and click on “[Submit Feedback](#)” at the top of most web pages.

There are two methods of entering a PQDR. Both methods are accessible from the PDREP Home Page link provided above.

- Personnel can apply for a PDREP-AIS user account and enter and manage PQDRs directly in the PDREP-AIS. Access to the PDREP-AIS allows the Originator to track the PQDR as it is processed, allows “Auto Fill” and “Lookup” options and validation of data entries when creating the PQDR, and allows access to PDREP data, search functions, reports and notifications.
- The Easy Product Data Reporting (EzPDR) application allows personnel to submit PQDRs without having a PDREP account or User ID. Personnel can monitor the progress of the PQDRs they have submitted, but are not permitted access to the full power of PDREPs entire PQDR database.

1 VIEWING THE WORKLIST

Once you have logged in the PDREP Home screen (Figure 1.1) will display. You may not see all of the options listed depending on your level of access.

**Please refer to PDREP User Access Request and Login Procedures.*

The screenshot displays the PDREP Home interface. At the top, a green banner contains the text 'FOUO UNCLASSIFIED FOUO' and 'Product Data Reporting and Evaluation Program (PDREP)'. Below this, a navigation bar includes links for 'PDREP Home', 'Submit Feedback', 'External Links', and 'PDREP Manuals', along with a 'User Profile' section and a 'logout' link. The main content area is divided into three columns. The left column, titled 'PDREP APPLICATIONS', lists various report types such as 'Batch Upload', 'Contract Award and Delivery Data (CAD)', 'Corrective Action Request (CAR)', 'Facility Oversight Plan (FOP)', 'DCMA Surveillance Plan', 'QALI/Letter of Delegation (LOD)', 'Material Inspection Record (MIR)', 'Product Quality Deficiency Report (PQDR)', 'Receipt Inspection Management System (RIMS)', 'Ship CSI Program (SCSI)', 'Special Quality Data (SQD)', 'Supply Discrepancy Report (SDR)', 'Supplier Audit Program (SAP)', 'Supplier Survey (Pre/Post Award)', and 'Test Records'. The 'Product Quality Deficiency Report (PQDR)' link is highlighted with a red rectangular box. The middle column is empty. The right column, titled 'PDREP REPORTS', lists 'Contractor Profile', 'Material Profile', 'NAVSUP 874 Reports', 'NAVSUP 854 Reports', and 'NAVSUP Level 1 Reports'. Below this is a section for 'PDREP PARTNER REPORTS' with 'DCIS Summary Report' and 'DLA Reports'. At the bottom of the right column is a 'SITE ADMIN' section with a 'QA ADMIN (Internal)' link. At the bottom of the page, a footer contains the text: 'PDREP NAVSEALOGCEN PORTSMOUTH, NH. Version : 5.0.27, Build Date : 05/13/2016', 'Phone : (207) 438-1690 Email Technical Support', and 'May 23rd, 2016'.

Figure 1.1

1. Click the *Product Quality Deficiency Report* link under PDREP Applications toward the upper left portion of the screen. The PQDR Worklist will display (Figure 1.2).

PQDR Worklist

Instructions

1. Select **Show Worklist for**
2. Select **Status** for the PQDR list
3. Enter **DODAAC** and/or **User Code**.
4. Add additional information as required to reduce the Worklist result set.

[For additional help](#)

Show Worklist For: SUPPORT POINT **Status:** CURRENT WORKLIST

From Date: 10/03/2010 **To Date:** 10/03/2013

DODAAC: **User Code:**

Sort: RECEIVED DATE - ASC **Organization Code:**

or select from your personalized PQDR Worklists below

To use previously saved Worklists:

1. Select the worklist from **my Worklists**
2. Click **Open my Worklist**
3. To create a new worklist select **Create New Worklist**
4. To delete previously saved worklist select **Manage my Worklists**

my Worklists

Figure 1.2

2. The Worklist settings will default as shown above, with the Activity set to your primary DoDAAC and the User Code set to your PDREP User ID. Under “Show Worklist For”, select the desired role; ORIGINATOR, SCREENING POINT, ACTION POINT, or SUPPORT POINT. If you want to see only PQDRs currently assigned directly to you, click *Display Standard Worklist*. If you want to see all PQDRs assigned to your activity (DoDAAC) then you may remove your User Code and then Display Standard Worklist.
3. The “Status” setting of CURRENT WORKLIST will return only PQDRs currently assigned to the role selected in Show Worklist For. Other available statuses include:
 - a. **ALL**: Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed and whether the PQDR is open or closed.
 - b. **OPEN**: Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed but where the PQDR has not yet been closed by the Screening Point. This includes PQDRs forwarded to a Support Point but not yet returned.
 - c. **CLOSED**: Returns all PQDRs previously assigned to the designated activity and/or user code for investigation but where the PQDR has been closed by the Screening Point.
4. The date range for the Worklist defaults to the present date minus three years but can be changed if needed. The Worklist can also be sorted by a variety of criteria but defaults to listing PQDRs in ascending order by the date on which the PQDR was first entered into PDREP.
5. The Worklist can also be run for a specific team by entering the designator (Organization Code) for that team. The results will include any PQDR currently assigned to a PDREP user for action whose user profile contains the exact Organization Code specified in the search.

6. When you have selected the criteria, click *Display Standard Worklist* to view all PQDRs matching the criteria entered. The Worklist results will appear below (Figure 1.3).

The screenshot shows the PDREP interface with the following elements:

- Header: FOUO UNCLASSIFIED FOUO Product Data Reporting and Evaluation Program (PDREP)
- Navigation: PDREP Home, Submit Feedback, External Links, PDREP Manuals, User Profile, logout
- Menu: PQDR Worklist, Create New PQDR, PQDR Search/Reports, PQDR Clone, PQDR Analysis Tool, Preview EZPQDR Entry
- Form:
 - Instructions: 1. Select Show Worklist for, 2. Select Status for the PQDR list, 3. Enter DODAAC and/or User Code, 4. Add additional information as required to reduce the Worklist result set.
 - Show Worklist For: SUPPORT POINT (dropdown)
 - Status: CURRENT WORKLIST (dropdown)
 - From Date: 09/19/2013 (calendar icon)
 - To Date: 09/19/2016 (calendar icon)
 - DODAAC: (text input)
 - User Code: (text input)
 - Sort: RECEIVED DATE - ASC (dropdown)
 - Organization Code: (text input)
 - Buttons: Display Standard Worklist, Open my Worklist, Create New Worklist, Manage my Worklists
- Result count: 2
- Worklist Download: Click here to download data in Microsoft Excel format
- Table with columns: CAT, Received, History & Correspondence, RCN, SF-368, Vendor CAGE, Manufacture CAGE, CSI, NSN, Nomenclature, Contact/Phone, Last Action, Last Corr Date, Last Corr From, Status, DR Acknowledge, Days Overdue

CAT	Received	History & Correspondence	RCN	SF-368	Vendor CAGE	Manufacture CAGE	CSI	NSN	Nomenclature	Contact/Phone	Last Action	Last Corr Date	Last Corr From	Status	DR Acknowledge	Days Overdue
II	01/22/2014	View	-14-0002	SF-368			NO	9999	MISCELLANEOUS ITEM		SUPPORT POINT FROM ACTION POINT	01/23/2014		DEFECT UNDER INVESTIGATION	23-JAN-14	961
II	01/23/2014	View	-14-0003	SF-368			NO	9999	MISCELLANEOUS ITEM		SUPPORT POINT FROM ACTION POINT	09/28/2015		DEFECT UNDER INVESTIGATION	23-JAN-14	960

Figure 1.3

7. The search results include the following fields.
- CAT (Category):** The category (I or II) of the PQDR. Category I PQDRs will be identified in red.
 - Received:** The date when the PQDR was forwarded to the Action Point level.
 - History & Correspondence:** Click the *View* link in this column to open a new window containing correspondence and forwarding history for this PQDR.
 - RCN (Report Control Number):** Click the *RCN* in this column to open the Action Point page for the PQDR. This is the page from which most Screening Point tasks will be performed.
 - SF-368:** Click *SF-368* link in this column to view the Standard Form 368 for the subject RCN in a new window.
 - CAGE (Vendor and Manufacture Entity):** The CAGE code of the contractor to whom the deficiency has been attributed to will appear here if one has been supplied. Clicking on the *CAGE code* in this column will redirect you to the NIIN/Contract Search page and allow you to search for other PQDRs attributed to this CAGE code (which will be filled in automatically on the search page) or by other criteria.
 - CSI (Critical Safety Item):** Indicates whether the item reported deficient has been identified as a CSI. Investigations of CSI items should be expedited according to the policies of the investigating activities.

- h. **NSN (National Stock Number):** The NSN for the item reported deficient. The NSN may have as many as four separate components:
- i. **COG:** (Optional) Two-character Cognizance Symbol of the deficient item. When used, the COG identifies the inventory manager for the deficient item.
- j. **FSC:** (Required) Four-digit Federal Supply Class of the deficient item.
- k. **NIIN:** (Optional) Nine-digit National Item Identification Number of the deficient item.
- l. **SMIC:** (Optional) Two-character Special Material Identification Code for the deficient item. When used, the SMIC identifies items requiring stricter controls to ensure technical integrity (e.g. Navy Nuclear).

Note: Click any component of the NSN to go to the NIIN/Contract Search page with the selected NSN component pre-filled. This page searches for PQDRs based on any combination of NSN components, CAGE, contract or requisition number and dates.

- m. **Nomenclature:** Item description associated with the NIIN.
- n. **Contact/Phone:** The name and telephone number (if provided) of the point of contact who forwarded the PQDR to the current Work List level.
- a. **Last Action:** Displays the last forwarding, release or closure action performed on the PQDR.
- b. **Last Corr Date:** Displays the date of the last correction was completed on the PQDR.
- c. **Last Corr From:** Displays the userid associated with who completed the last correction.
- o. **Status:** Displays the current PQDR status.
- p. **Days Overdue:** This value is based on the “Show Worklist For” level selected. For the Action Point level, this displays the relationship between the current date and the Action Point Suspense Date. A negative number, e.g. -30 indicates the number of days remaining until the current suspense expires. A positive number, e.g. 10 indicates the number of days since the current suspense expired. A blank in this column indicates either that no suspense date has been set or that the current suspense expires today.

1.1 Personalized PQDR Worklist

1. Click *Create New Worklist*, to create a personalized PQDR Worklist. (Figure 1.4)

The screenshot shows the 'Product Data Reporting and Evaluation Program (PDREP)' interface. At the top, there is a navigation bar with the following links: 'PQDR Worklist' (highlighted), 'Create New PQDR', 'PQDR Search/Reports', 'PQDR Clone', 'PQDR Analysis Tool', and 'Preview EZPQDR Entry'. Below the navigation bar is the 'PQDR Worklist' form. The form contains the following elements:

- Instructions:**
 1. Select **Show Worklist for**
 2. Select **Status** for the PQDR list
 3. Enter **DODAAC** and/or **User Code**.
 4. Add additional information as required to reduce the Worklist result set.[For additional help](#)
- Show Worklist For:** SUPPORT POINT (dropdown menu)
- Status:** CURRENT WORKLIST (dropdown menu)
- From Date:** 10/03/2010 (calendar icon)
- To Date:** 10/03/2013 (calendar icon)
- DODAAC:** (text input field)
- User Code:** (text input field)
- Sort:** RECEIVED DATE - ASC (dropdown menu)
- Organization Code:** (text input field)

Below the form fields is a button labeled 'Display Standard Worklist'. Below this button is the text 'or select from your personalized PQDR Worklists below'. Below this text are instructions for using previously saved worklists:

- To use previously saved Worklists:
 1. Select the worklist from **my Worklists**
 2. Click **Open my Worklist**
 3. To create a new worklist select **Create New Worklist**
 4. To delete previously saved worklist select **Manage my Worklists**

At the bottom of the form, there is a dropdown menu labeled 'my Worklists' and three buttons: 'Open my Worklist', 'Create New Worklist', and 'Manage my Worklists'.

Figure 1.4

2. After selecting *Create New Worklist* select the desired Data Elements for the Worklist (Figure 1.5).

WORKLIST REPORT

Instructions
Please follow these steps to create new Worklist:
1. Select one or more 'Data Elements'
2. Click **Add Columns>>** and/or **<< Delete Columns** to set the 'Selected Data Elements' List
3. Select 'Data Element', and click **Add Where** to set the where condition(s)
4. Enter the 'Expression' and 'Value' in the Where clause
5. To add more than one where condition select a 'Logical Expression'
6. Click on **RUN QUERY**

Report Title:
Data Record: PRODUCT QUALITY DEFICIENCY REPORT

Select Columns: **Data Elements** **Selected Data Elements**

<div style="border: 1px solid black; padding: 2px;"> Action Office Action Officer Ack Date Action Officer Major Command Action Point Ack Date Action Point Control Number Action Point DODAAC Action Point DSN Number Action Point Due Date Action Point EMAIL Address Action Point Major Command </div>	<input type="button" value="Add Columns"/> <input type="button" value="Delete Columns"/>	<div style="border: 1px solid black; padding: 2px; min-height: 100px;"> No columns selected </div>

PDREP NAVSEALOGCEN PORTSMOUTH, NH. Version : 5.0.27, Build Date : 05/13/2016
Phone : (207) 438-1690 [Email Technical Support](#)
May 25th, 2016

Figure 1.5

3. Selecting of Data Elements:

- a. Selecting one Data Element will give you only the results on that individual element.
- b. Multiple Data Elements may be selected in the column together by using the CTRL or Shift key.
- c. Once Data Elements have been selected, click *Add Columns* to move them to the Selected Data Elements box. Data Elements can be removed from the Selected Data Elements box by selected them and clicking *Delete Columns*.
- d. Data Elements can be prioritized in the Selected Data Elements box by selecting data element and using the Up and Down arrows to the right of the box.
- e. Data Elements can be prioritized in the drop down next to the “Add Where” Button.
- f. After Data Elements have been selected click *Add Where* to go to the Worklist report query screen where values and expressions can be placed to retrieve desired report results.
- g. At Worklist report screen, values must be place in to run query. Once query has been run it can be saved to your profile as a personalized Worklist.

2 INVESTIGATION ACTIVITIES

In order to conduct investigation activities for a specific PQDR the QAR can either enter the RCN directly on the PQDR Search > RCN Search page or look up the PQDR on the Worklist page and click on the subject RCN. Once the PQDR has been selected by either method, the PQDR Base Page will display as shown in Figure 2.1

Figure 2.1

The primary functions of the QAR during an ongoing investigation are to monitor the progress of the investigation relative to suspense dates, to request and examine exhibits as required, to record the results of the investigation in PDREP and to provide regular status updates to the DRPM for forwarding to the Action Point. In some cases the QAR may not perform some functions in the PDREP system if the DRPM chooses to generate all correspondence and to enter relevant investigation information into PDREP but the system is designed to allow a QAR to perform those functions.

2.1 Monitoring Suspense

The most common method for a QAR (or DRPM) to monitor the pending expiration of suspense for a given investigation is to use the Worklist and to sort it by “Overdue” as discussed in section 1. Many investigators choose to act when a certain number of days (e.g. 5 days) remain before a particular suspense expires. Once a suspense date has expired, the subject investigation is considered to be delinquent.

2.2 Sending Correspondence

NOTE: Most DCMA metrics are based upon various dates in the PDREP system, and the correct use of Support Point Letters in PDREP is critical to the proper maintenance of these dates.

2.2.1 Support Point Letters

While an investigation is in progress, sending any formal PDREP correspondence under “Support Point Letters” will update all relevant dates automatically and will result in the setting of a new suspense date. The number of days for a given suspense is set according to the type of correspondence being sent and by the Category (e.g. CAT I or CAT II) of the PQDR. Most support point letters can be sent either by the QAR (Figure 2.2) or by the DRPM (Figure 2.3), but there are two letters that can only be sent by the DRPM; the Interim Reply and the Final Reply.

1. Click the “Support Point Letters” link under “Correspondence” and the PQDR Correspondence pages will display.

09/19/2011	EXHIBIT NOT REQUIRED
09/19/2011	REDIRECTED TO A NEW SUPPORT POINT

Figure 2.3

2. To generate any letter, select the desired letter from the dropdown list of available letters. The system generates a Support Point standard letter which you can edit if desired.

Note: A copy of all Support Point letters is sent automatically to the person generating the letter so there is no need to put your e-mail address on the “CC” line. If you would like to keep a hard copy of the letter or preview what will be sent then click the “Preview” button before sending.

3. The investigation will normally commence when a Notice of Defects is sent to the contractor with a copy to the assigned QAR. This letter is normally sent by the DRPM.
4. The contractor will then determine whether they require an exhibit in order to investigate, and will return the Contractor Request for Exhibit form included in the Notice of Defects package.
5. If an exhibit is required then the QAR (or DRPM) will send an Exhibit Request letter to the Action Point. If the Exhibit is not required then the Exhibit Not Required letter should be sent.
6. When an exhibit is received, the Exhibit Receipt letter should be sent.
7. The remainders of the letters available to the QAR deal primarily with exhibit disposition and are most commonly sent by the DRPM.
8. In the absence of other investigation activities like the request or receipt of exhibits, the QAR should request that the DRPM send an Interim Reply for any open investigation when the suspense for that investigation is about to expire.
9. To request an Interim Reply, you may contact your DRPM by phone, e-mail or by using the “Send Message to: Other” link near the bottom of the PQDR working page. You should not use the “Forward to DRPM for Approval and Release” link when requesting an Interim Reply as this may cause you to lose access to the PQDR. You should review local CMO policy for further guidance on preferred methods of notification.

Note: The Interim Reply, like all Support Point Letters, is designed to generate all of the required text automatically based upon a Support Point standard letter template. In order for this template to function correctly, any investigation results collected to date should be entered into the “Input 1227 Data” page in PDREP. In the absence of meaningful results an explanation should be entered into block 17 of the 1227 form of the current status and estimated completion date of the investigation.

2.3 Closing the Investigation

2.3.1 Review/Input 1227 Data

In most cases the QAR will enter the investigation results on the “Input 1227 Data” page. These results will be transcribed in large part from the contractor’s response, so the QAR should review the contractor’s response to ensure that a satisfactory investigation has been conducted, particularly with regard to corrective and preventive action. Detailed instructions that address the contents of each block on the 1227 form may be found on the PDREP web site at <http://www.nslcptsmh.navysea.navy.mil>.

1. Click “Input 1227 Data” and the 1227 Input form will display (Figure 2.4).

The screenshot shows a web form titled "1227 Input". At the top, there are instructions: "1. All narratives are 2000 characters long", "2. To save the record, click **Save**", and "3. To cancel the process, click **Cancel**". A note states: "(Note: Cloning will overwrite current 1227 data and all defect codes, except recovery value, with cloned 1227 data and cloned defect codes)". Below the instructions is a link: "To clone from an existing 1227 click [Clone List](#)". There are three buttons: "Save", "Save and Exit", and "Cancel".

Below the buttons are three text input fields labeled "Prepared By:", "Reviewed By:", and "Approved By:". The main body of the form consists of several sections:

- 12. Cause of Deficiency**
 - a. Validation of Reported Deficiency:** 12A COMMENTS
 - b. Cause of Deficiency:** 12B COMMENTS
 - c. Responsibility for Deficiency:** 12C COMMENTS
- 13. Corrective Action Taken (Contractor)**
 - a. Corrective Action Taken or Planned:** 13 A COMMENTS
 - b. Preventative Action Taken or Planned:** 13B COMMENTS

Each of these sections has a vertical scrollbar on the right side of its text area.

Figure 2.4

2.3.2 Review/Input DCM Data (Defect Codes)

The DCM Data page is provided so that the investigation results can be codified for statistical analysis. In some cases there may not be a code available that exactly matches the investigation results. If this occurs, select the best available match. Click “DCM Data (Defect Codes)” and the Defect Codes page (Figure 2.5) will display.

Figure 2.5

2.3.3 Request a Final Reply

The method of requesting a Final Reply and investigation closure varies somewhat by CMO. The two most common methods are described below, but QARs should check local CMO and team policy for further guidance. After the 1227 data is input and the defect codes have been selected, follow one of the below methods according to local policy.

1. Use this method if a supervisor, team lead or other approving party reviews your work before the DRPM is notified.
 - a. Under “Send Message To”, select the “Other” link toward the bottom of the PQDR base page.
 - b. Enter or look up the recipient and CC addresses for the message.
 - c. Under “Correspondence Type” choose “Forward for Review to Supervisor”.
 - d. Enter the desired message (e.g. “ready for Final Reply”) and click “Send”.

The PQDR will remain on your work list until the supervisor uses the “Forward to DRPM for Approval and Release” function.

2. Use this method if there is no review process between you and the DRPM.
 - a. Under “Release PQDR” select “Forward to DRPM for Approval and Release”.
 - b. Choose the activity (DoDAAC) for the DRPM of the responsible CMO. In most cases the responsible CMO will be the one for which both the DRPM and QAR work, but exceptions will arise when a PQDR is delegated outside the responsible CMO.
 - c. Confirm the DoDAAC of the responsible CMO. Click “View Points of Contact” under “Quick Views” on the PQDR base page. The Responsible CMO is listed at the bottom of the page.
 - d. Click “Get List” next to the Activity dropdown for a list of recipients at the selected activity.
 - e. Unless otherwise directed, do NOT select a specific individual from the list. PDREP will choose the default recipient for you.
 - f. Enter or look up CC recipient addresses.
 - g. Enter the desired message (e.g. “ready for Final Reply”) and click “Send”.

NOTE: When the Final Reply is sent, the investigation is officially closed by setting the Support Point Release Date in PDREP. This is not the same as the Support Point Complete Date. The Support Point’s task is not complete until any investigation exhibits have been disposed of in accordance with the Action Point’s instructions.

2.3.4 Exhibit Disposition

The Support Point Complete Date in PDREP will be set according to the following rules when the Final Reply letter is sent.

1. If the Exhibit Status, found on the View Exhibit Details page, is set to Unknown, Closed (exhibit has been returned or disposed of, Exhibit Return letter has been sent) or Not Required then the Support Point Complete Date will be set to the date of the Final Reply.
2. If the Exhibit Status is set to Open (exhibit has been requested or received but no Exhibit Return letter has been sent) then the Support Point Complete Date will not be set until the Exhibit Return letter is sent.

Note: The Exhibit Return letter should be used to acknowledge that the Action Point's disposition instructions have been followed, even if the Action Point directs a disposition (e.g. scrap and mutilate) other than the actual return of the exhibit.

3 Other PQDR Base Page Features

3.1 QUICK VIEWS

The links in the “Quick Views” section of the PQDR Base Page provide a way to quickly review the various forms associated with a PQDR as follows:

1. **View SF-368 (HTML):** Displays the SF-368 form in a new window as web-formatted text. This is the quickest way to retrieve an SF-368 for review but may not be suitable for printing.
2. **View SF-368 (PDF):** Displays the SF-368 form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper SF-368 form and is suitable for printing.
3. **View 1227 (HTML):** This link is only available to non-Support Point activities after a Support Point investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as web-formatted text. This is the quickest way to retrieve a 1227 for review but may not be suitable for printing. This form is visible to Support Point users while the investigation is still in progress at the Support Point level.
4. **View 1227 (PDF):** This link is only available to non-Support Point activities after a Support Point investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper 1227 form and is suitable for printing. This form is visible to Support Point users while the investigation is still in progress at the Support Point level.
5. **View Exhibit Tag:** Displays a DD2332 exhibit tag form for attachment to an exhibit to the PQDR investigation if desired.
6. **View Points of Contact:** Displays all points of contact assigned to date who may be participating in the PQDR investigation. This will include the Originator, Screening, Action and Support Point individuals as well as any Government, Contractor, Subcontractor and Shipper investigators assigned.
7. **History:** Displays a comprehensive history of all forwarding actions and correspondence to date for the subject PQDR. The text of all e-mail messages will display on the History page, and a link is provided to any formal letter correspondence sent from PDREP so that the correspondence can be reviewed and reprinted if needed.

3.2 ATTACHMENTS

Files of various types that support the PQDR or the investigation can be attached to a PQDR in PDREP.

Click the View/Upload files link to see any files that have been attached to the PQDR to date. The number of currently attached files will appear in parentheses. To attach new files, click the “View/Upload Files” link and then click “Add Attachments” and follow the instructions on the page. The maximum file size for any single attachment is 2 megabytes.

3.3 EXHIBIT TRACKING

The shipment and receipt of exhibits associated with the PQDR investigation can be tracked here. Click the “Exhibit Tracking” link and follow the instructions on the page if you wish to track exhibits.

3.4 USER INFORMATION

The “User Profile” link here will redirect you to the same page as the “User Profile” link at the top of most PDREP pages and is placed here as a convenience.

4 Support Point Exhibit/Suspense Search

The Support Point Exhibit/Suspense Search was designed to allow Support Points to track the status of all exhibits, particularly for investigations where a Final Reply has already been sent. These would be cases where some follow-up or intervention by Support point may be required in order to ensure correct disposition of the exhibits in question. The following image shows the typical input criteria and results for this search.

Figure 4.1

1. To run this search, the following criteria can be entered:
 - a. Start and End Date: These dates default to the system date minus three years but can be edited.
 - b. Exhibit Status: The search is run for all exhibits of a single status at any given time. The most common use of this search is for investigations where the exhibit has a status of 2-OPEN.
 - c. SYSCOM: The search can be restricted to a particular service or SYSCOM but would most commonly be run for all SYSCOM codes, which is the default.
 - d. User ID: The search can be restricted to investigations currently assigned to an individual PDREP user by their PDREP User ID. Given that the primary use of this search is post-investigation, this entry is not commonly used.
 - e. Org Code (Team): The search can be restricted to investigations currently assigned to individual PDREP users who have entered a particular Organization Code (Team designator) in their user profiles. Given that the primary use of this search is post-investigation, this entry is not commonly used.
 - f. Region: This entry formerly referred to Support Point geographical districts but would now be used to restrict the search to a particular functional division, e.g. A-AERONAUTICAL SYSTEMS. This search would most commonly be run for ALL region/division codes, which is the default.
 - g. Support Point Activity: Since the primary purpose of this document is to instruct the DRPM, this is the most common entry used for this search. To view exhibits pending disposition for a particular CMO (in the example above, S2103A); enter the DoDAAC for the CMO here.
 - h. Sort: The search can be sorted by several criteria but defaults to CAO Suspense Date.

5 SUMMARY

This concludes the investigation instructions for Support Point Quality Assurance Representative Investigations. For instructions on other PQDR investigation activities please consult the other documents provided in this series. The PDREP Customer Support desk is available to answer additional questions or to assist in data changes or exception processing and can be contacted as follows.
