FORWARD

This guide does not replace or amend any Department of Defense (DoD) instructions, regulations, and/or policies. Its purpose is to assist users with Product Data Reporting and Evaluation Program (PDREP) – Automated Information System (AIS) Product Quality Deficiency Report (PQDR) application’s functionalities only. The PDREP PQDR is designed to work in concert with existing DoD policy and processes for submitting PQDRs. Proper use of the PDREP application should facilitate compliance with DoD PQDR policy.

Refer to the appropriate PQDR instructions and manuals for information about DoD PQDR program requirements.

INTRODUCTION
This document is intended to guide DoD personnel in the use of the Product Data Reporting and Evaluation Program – Automated Information System (PDREP-AIS) and in the process of entering new Product Quality Deficiency Reports (PQDR).

The PDREP application is accessible via the Product Data Reporting and Evaluation Program home page: https://www.pdrep.csd.disa.mil/

User access and login procedures can be located in the PDREP User Access and Login Procedures guide. First time PDREP users will need to submit a User Access request form, available on the NSLC home page: http://www.nslcptsmh.csd.disa.mil. Click on User Access Request to download the form. Follow the directions on the form to submit the request for access to PDREP.

To update your access to the PDREP-AIS system an Access Change Requests must be submitted. The User Access request form is available within the PDREP-AIS application. Once logged into the PDREP-AIS click ‘[Your Name]’ in the upper right corner of the page, click ‘Click Here’ to update profile information, click ‘Access Change Request’ tab, Update access request as desired. Enter a narrative to describe your change request and click submit account change request button.

Requests for changes or improvement to any PDREP application or any of the NSLC Portsmouth web pages should be submitted to:

Customer Support Desk
Commercial Phone: (207) 438-1690 / DSN 684-1690
FAX: (207) 438-6535, DSN 684-6535
Email: webptsmh@navy.mil

Mailing Address
Naval Sea Logistics Center Portsmouth
Bldg. 153, 2nd Floor, Portsmouth Naval Shipyard
Portsmouth, NH 03804-5000

Online in the PDREP Application
If already a PDREP User, log into PDREP and click on Submit Feedback at the top of most web pages.

There are two methods of creating a PQDR. Both methods are accessible from the PDREP Home Page located at: https://www.pdrep.csd.disa.mil/

1. Personnel can apply for a PDREP-AIS user account to create and manage PQDRs directly in the PDREP-AIS. Access to the PDREP-AIS allows the Originator to track the PQDR as it is processed, allows “Auto Fill” and “Lookup” options and validation of data entries when creating the PQDR, and allows access to PDREP data, search functions, reports and notifications.

2. The Easy Product Data Reporting (EzPDR) application allows personnel to submit PQDRs without having a PDREP account or User ID. Personnel can monitor the progress of the PQDRs they have submitted, but are not permitted access to the full power of PDREPs entire PQDR database.
1 MAIN PDREP APPLICATION SCREEN

Once you have logged in, the PDREP Home page will display (See Figure 1.1). You may not see all of the options listed depending on your level of access.

*Please refer to PDREP User Access Request and Login Procedures.

1.1 FINDING THE FLY OUTS

Hover your mouse pointer over any PDREP Application located on the upper left portion of the screen and a list of sub-links for that application will appear (See Figure 1.2).
1.2 SELECTING THE FLY OUT

Selecting either of the sub-links will allow the user to go directly to that page within the application (See Figure 1.2).

2 PQDR WORKLIST

The PQDR Worklist pages is used to filter the list of PQDRs based on access role, status, DoDAAC, and User Code.

2.1 ACCESSING THE PQDR WORKLIST

To access PQDR Worklist select the PQDR Worklist Link from one of the sub-link options from the PQDR in the PDREP Applications (See Figure 2.1) and the PQDR Worklist page will display (See Figure 2.2)
Figure 2.2

2.2 WORKLIST SETTINGS

The Worklist settings will default as shown in Figure 2.2, with the Activity set to your primary DODAAC and the User Code set to your PDREP User ID. Under Show Worklist For, select the desired role; ORIGINATOR, SCREENING POINT, ACTION POINT, or SUPPORT POINT. If you want to see only PQDRs currently assigned directly to you, click Display Standard Worklist button. If you want to see all PQDRs assigned to your activity (DoDAAC) then you may remove your User Code and then click Display Standard Worklist button.

A. The Status setting of CURRENT WORKLIST will return only PQDRs currently assigned to the role selected in Show Worklist For. Other available statuses include:

1. **ALL**: Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed and whether the PQDR is open or closed.
2. **OPEN**: Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed but where the PQDR has not yet been closed by the Screening Point. This includes PQDRs forwarded to a Support Point but not yet returned.

3. **CLOSED**: Returns all PQDRs previously assigned to the designated activity and/or user code for investigation but where the PQDR has been closed by the Screening Point.

B. The date range for the Worklist defaults to the present date minus three years but can be changed if needed. The Worklist can also be sorted by a variety of criteria but defaults to listing PQDRs in ascending order by the date on which the PQDR was first entered into PDREP.

C. The Worklist can also be run for a specific team by entering the designator for that team in Organization Code. The results will include any PQDR currently assigned to a PDREP user for action whose user profile contains the exact Organization Code specified in the search.

D. When you have selected the criteria, click Display Standard Worklist to view all PQDRs matching the criteria entered. The Worklist results will appear as in Figure 2.3.

![Figure 2.3](image_url)

E. The search results include the following fields.

1. **CAT (Category)**: The category (I or II) of the PQDR. Category I PQDRs will be identified in red.
2. **Received:** The date when the PQDR was forwarded to the Action Point level.

3. **History & Correspondence:** Click the View link in this column to open a new window containing correspondence and forwarding history for this PQDR.

4. **RCN (Report Control Number):** Click the RCN in this column to open the Action Point page for the PQDR. This is the page from which most Screening Point tasks will be performed.

5. **SF-368:** Click SF-368 link in this column to view the Standard Form 368 for the subject RCN in a new window.

6. **CAGE (Vendor and Manufacture Entity):** The CAGE code of the contractor to whom the deficiency has been attributed to will appear here if one has been supplied. Clicking on the CAGE code in this column will redirect you to the NIIN/Contract Search page and allow you to search for other PQDRs attributed to this CAGE code (which will be filled in automatically on the search page) or by other criteria. Note on Vendor CAGE/Vendor Liability: Vendor CAGE code is the party held responsible contractually for supplying the deficient material. If the PQDR is Vendor Liable, the PQDR will affect the SPRS Score of the Vendor CAGE Code identified.

7. **CSI (Critical Safety Item):** Indicates whether the item reported deficient has been identified as a CSI. Investigations of CSI items should be expedited according to the policies of the investigating activities.

8. **NSN (National Stock Number):** The NSN for the item reported deficient. The NSN may have as many as four separate components:
   - **COG:** (Optional) Two-character Cognizance Symbol of the deficient item. When used, the COG identifies the inventory manager for the deficient item.
   - **FSC:** (Required) Four-digit Federal Supply Class of the deficient item.
   - **NIIN:** (Optional) Nine-digit National Item Identification Number of the deficient item.
   - **SMIC:** (Optional) Two-character Special Material Identification Code for the deficient item. When used, the SMIC identifies items requiring stricter controls to ensure technical integrity (e.g. Navy Nuclear).

   **NOTE:** Click any component of the NSN to go to the NIIN/Contract Search page with the selected NSN component pre-filled. This page searches for PQDRs based on any combination of NSN components, CAGE, contract or requisition number and dates.

9. **Nomenclature:** Item description associated with the NIIN.

10. **Contact/Phone:** The name and telephone number (if provided) of the point of contact who forwarded the PQDR to the current Work List level.

11. **Last Action:** Displays the last forwarding, release or closure action performed on the PQDR.
12. **Last Corr Date**: Displays the date of the last correction was completed on the PQDR.

13. **Last Corr From**: Displays the userid associated with who completed the last correction.

14. **Status**: Displays the current PQDR status.

15. **Days Overdue**: This value is based on the “Show Worklist For” level selected. For the Action Point level, this displays the relationship between the current date and the Action Point Suspense Date. A negative number, e.g. -30 indicates the number of days remaining until the current suspense expires. A positive number, e.g. 10 indicates the number of days since the current suspense expired. A blank in this column indicates either that no suspense date has been set or that the current suspense expires today.

### 2.3 PERSONALIZED PQDR WORKLIST

Worklists may be created based on specific data elements that return specialized data.

![Image of PQDR Worklist interface](image-url)
A. To create a personalized PQDR Worklist, click Create New Worklist, see Figure 2.4.

B. If it is advisable to know the number of rows before running the query for the first time, check the “Get Row Count” check box. The initial query will return only the number of rows returned for the specified parameters. This is especially handy to check if there are more than 20,000 records that match your query. Remember to uncheck the “Get Row Count” box when you’re ready to retrieve the actual data set.

C. After selecting Create New Worklist select the desired Data Elements for the Worklist (See Figure 2.5)

![Figure 2.5](image)

D. **Selecting of Data Elements:**
   1. Selecting one Data Element will give you only the results on that individual element.
   2. Multiple Data Elements may be selected in the column together by using the CTRL or Shift key.
   3. Once Data Elements have been selected, click Add Columns to move them to the Selected Data Elements box. Data Elements can be removed from the Selected Data Elements box by selecting them and clicking Delete Columns (See Figure 2.6).
4. Data Elements can be prioritized in the Selected Data Elements box by selecting data element and using the Up and Down arrows to the right of the box.

5. Data Elements can be prioritized in the drop down next to the “Add Where” Button.

6. After Data Elements have been selected click Add Where to go to the Worklist report query screen where values and expressions can be placed to retrieve desired report results (See Figure 2.7).

7. At Worklist report screen, values must be place in to run query. Once query has been run it can be saved to your profile as a personalized Worklist (See Figure 2.7).

Figure 2.6
Figures 2.7

3 ACTION POINT ACTIONS

3.1 ACCESSING THE PQDR

The Action Point can either enter the RCN directly on the PQDR Search > RCN Search page (See Figures 3.1 and 3.2) or look up the PQDR on the Worklist page (See Figures 3.3 and 3.4) and click on the subject RCN. Once the new PQDR has been selected by either method, the PQDR Base Page will display (See Figure 3.5).
Figure 3.1

Figure 3.2
NOTE: If this is the first PQDR opened in this login session, the SF-368 will display. Select the appropriate level under “Choose Level” to access Base Page options.
3.2 SENDING ACKNOWLEDGEMENT

The Action Officer should acknowledge receipt of PQDR and initiate the investigation immediately upon receipt of the PQDR. In many cases the investigation may be conducted by direct contact with the supplier of the deficient item. If the deficient item was received from a contractor under SUPPORT POINT oversight or was overhauled by a repair facility, then the PQDR may be forwarded to the appropriate Support Point or Repair Facility for investigation support. The Action Point will enter or add information or edit information supplied by the Support Point using the Action Point Editable Fields on the PQDR base page.

A. Click the Send Screening Point Acknowledgement of Receipt link (See Figure 3.5). The Send Message page will be displayed (See Figure 3.6).

B. A message will be sent to the Screening Point of the PQDR acceptance. The Send Message form displays to provide the opportunity to add comments for the Screener (See Figure 3.6).
C. After sending the receipt message the Action Officer PQDR Base Page will display (See Figure 3.7).
3.3 ACTION OFFICER – EDITABLE FIELDS

A. Edit Blocks 1-21 Data

1. To enter or edit mandatory fields from the SF368 as entered by the Originator click the Blocks 1-21 link from the Screening Point base page (See Figure 3.7).
2. The PQDR Originator Data Entry Blocks 1-21 will display. For detailed explanation of Blocks 1-21 please refer to the PQDR Originator instructions located on the PDREP Main Menu under Guides and Manuals.

B. **View/Edit Screening Point Data**

This page allows the Action Point to enter supplemental information about the PQDR and the investigation.

1. To add or edit information, click the View/Edit Action Point Data link from the Action Point base page (See **Figure 3.7**).

2. The PQDR View/Edit Action Point Fields page displays (See **Figures 3.8 and 3.9**).

![Figure 3.8]

Figure 3.8
3. Most of the information on this page is maintained automatically by PDREP. Many fields are optional and not all fields will apply to your activity. There are several fields on this page however that significantly affects other functions in PDREP. You should consult local policy for more detailed information regarding the use of these fields:
i. **Status:** This is the current status of the record.

ii. **Support Point Release Date:** If the record has been sent to a Support Point and returned to the Action Point this date will be set to the date the Support Point returned the record.

iii. **Support Point Due Date:** The Support Point due date is shown here.

iv. **Action Point Due Date:** This is the Action Point due date and is not editable.

v. **Action Point Activity:** Shows the Activity assigned to the record.

vi. **Action Point Name, Action Point Phone, and Action Point Email:** These are populated by the user profile for user assigned to record.

vii. **Action Point Control Number:** This is the Action Point’s control number for the PQDR. In the case of a DLA investigation this will be either a CDCS or BSM control number. This field is only editable for DLA users. The PQDR Advanced Search can be conducted based on this unique number.

viii. **Exhibit Required Ship Date:** Date requested for shipping of exhibit, not system generated.

ix. **ICP/RIC Code:** ICP/RIC (Routing Identifier Code) routing codes used

x. **LAR#: Engineering Activity:** These fields are used by NAVSUP to send/note the Cognizant Design Activity and are used in the CDA letter.

xi. **Last Repair Facility:** If a repair or overhaul facility will act as an investigation Support Point then the DODAAC of the overhaul facility should be entered here.

xii. **DODIC/NALC (ammunition):** Used to identify ammunition and ammunition components. Used by Army users.

4. These additional fields may be used by the Action Officer but they are purely informational and will not affect any other PDREP functions.

i. **Suspension Status:** This function will allow you to display a message on the PQDR Base Page for all PQDR levels indicating that the investigation may be suspended for a particular period of time. This message is informational only and does not affect suspense dates. Choose a reason for the suspension and then click “Add” and the page will expand to allow you to enter starting and ending dates and to save the suspension message. The Action Point may also edit or delete an assigned Suspension Code.

ii. **Action Point Rebuttal Date:** If the Action Points rebuts the investigation to the Support Point the date is entered.

iii. **Action QDR or Previous RCN:** If the reported deficiency has been previously investigated then the Action Point may choose to enter the RCN for the previously investigated PQDR here. This is informational only and does not change the investigation process in PDREP.
iv. **Action Point Release Date**: Date the Action Point sends to Support Point.

v. **Alert Notification and Narrative**: This optional indicator and narrative can be used to recommend to NAVSUP that the deficiency be reported on the monthly Defective Material Summary.

vi. **Action Point Exhibit Request/Return Address**: This optional set of fields allows the Action Point to enter the address that will automatically pre-fill on letters related to exhibit handling.

**NOTE: The section titled “NAVSUP” is used by NAVSUP only**

5. The following buttons are on all data entry pages.
   i. **Save** – will validate the mandatory entries and save the data, leaving the record at this page
   
   ii. **Save and Exit** – will validate the mandatory entries and save the data, returning the User to the PQDR base page.
   
   iii. **Cancel** – will return the User to the PQDR base page without validating or saving the data.

### 3.4 EDITING STOCK SCREENING DATA

Stock Screening is an optional process that the Navy uses to document the screening of Navy material stores in conjunction with a PQDR.

A. To edit Stock Screening data fields, click the Edit Stock Screening Data link from the Action Officer base page (See Figure 3.7).

B. The PQDR Stock Screening Fields page displays (See Figure 3.10)
C. The Stock screening page is broken down into 3 sections: Stock Screening Codes, Stock Screening Dates and Stock Screening Data. This page provides a means to track stock screenings that have been conducted based on the PQDR.

1. **Alert Type and Action Code**
   
i. The Alert Type (See Figure 3.11) identifies the method the stock screening request was received. Choose the appropriate Alert Type from the list for the stock screening that is being initiated.
ii. Action codes (See Figure 3.12) are associated with stock screening actions and determine the status of the stock screening during the process.

Figure 3.12

2. Stock Screening Dates

Stock screening dates provide status for the stock screening (See Figure 3.13).

i. Requested Date: The date when the stock screening request letter is sent to the IM (auto populated by PDREP)

ii. Status Date: The date populated by the Action Point when status or results of ongoing screening action is received from the IM.

iii. Initiated Date: The date populated by the Action Point upon notification from the IM of stock screening being initiated.
iv. **Declined Date:** The date populated by Action Point upon notification from IM that the request for stock screening is deemed not necessary.

v. **Completed Date:** The date populated by Action Point upon notification from the IM of completion of all screening actions.

3. **Stock Screening Data**

   This section provides the results of the stock screening performed, and is updated as the requested stock screenings are completed (See Figure 3.14).

### Figure 3.13

<table>

</tr>
</tbody>
</table>

### Figure 3.14

i. **Quality Inspected:** A running total of Stock Screening information provided from IM (Item Manager)

ii. **Quantity Deficient:** A running total of Stock Screening information provided from IM.

iii. **Narrative:** A narrative field populated by Action Point with details related to each response as needed. This field would also act as a journal to indicate and monitor the progression of the screening actions taken.

**NOTE:** Receive and review screening request responses from the IM and update the associated PDREP PQDR record appropriately. Continue to screen reports from the
IM until the screening action is complete or cancelled. Update the PQDR records accordingly. The PQDR can be in a Closed Status while the stock screening is in process. The updates may still be entered in the record after the PQDR is closed.

3.5 COMPLETE ACTION POINT INVESTIGATION (DLA FIELDS)

See Action Point Closing Actions.

3.6 PARENT CHILD

A. The Parent Child Function allows the Action Point to link several PQDRs with the same deficiency. This allows for a single investigation to accommodate several PQDRs simultaneously. A precursor for linking PQDRs as a Parent Child requires that the CAGE, NIIN, and Action Point DoDAAC of both PQDRs must be populated and must match.

B. There may be several Child PQDRs but only one Parent PQDR. The Child PQDR must be at Action Point from Screening Point.

C. The Parent PQDR may be at Action Point, Support Point, and Screening point from Action Point (investigation completed) or closed.

D. Once PQDRs are linked, the Child PQDR remains open at the Action Point. The child PQDR may not be forwarded or redirected except to Screening Point for closing and only after the parent PQDR investigation is complete. Once the PQDRs are linked, the Parent PQDR may be forwarded to a Support point for investigation.

E. To link the two PQDRs, select “Parent Child” on the Action Point Data Entry page and this will take you to the “Parent Child” page.

F. If your current PQDR is the Parent:
   1. Select the Parent check box under “My PQDR is a:”
   2. Enter the PQDR RCN of the intended Child PQDR under “link to:”
   3. Select “Add”
   4. Select “Save” to retain the link between the two PQDRs and copy any applicable investigation data to the Child PQDR, or select “Cancel” to dissolve the link between the two PQDRs and no data will be transferred.
   5. You may repeat this process to add as many Child PQDRs as required.

G. If your current PQDR is the Child:
   1. Select the Child check box under “My PQDR is a:”
   2. Enter the PQDR RCN of the intended Parent PQDR under “link to:”
   3. Select “Add”
   4. Select “Save” to retain the link between the two PQDRs and copy any applicable investigation data to the Child PQDR, or select “Cancel” to dissolve the link between the two PQDRs and no data will be transferred.
   5. You may only do this once as a Child PQDR as there may only be one Parent PQDR.
H. After the PQDRs are connected, if the Parent investigation was completed, the investigation information is copied to all Child PQDRs. Whether the Parent is at Action Point, Screening Point or Closed. If the investigation is not completed (as Support Point or Action Point), then the current information is copied and the Parent investigation is updated, the Child PQDR investigation information is also updated.

3.7 VIEW/ADD NOTES OR REFERENCE BRIEFS

The View/Add Notes and Reference Brief link from the Action Point base page provides access to input or view additional information about the processing of the PQDR (See Figure 3.7). This information is internal to PDREP and will not appear on any report or correspondence. They are frequently used for things like workflow notes or documenting telephone conversations regarding a PQDR. Although they are not visible outside of PDREP, the notes are visible to PDREP users at the originator's DoDAAC, not just the user who entered the note.

A. To enter notes or reference briefs, click the View/Add Notes or Reference Briefs link on the Screening Point Data Entry base page. The View/Add Notes or Reference Briefs page is displayed. (See Figure 3.15).

B. Click the Add Note/Brief to complete this action.

C. The “Add Note/Reference” section becomes visible and may be edited (See Figure 3.16).
3.8 CORRESPONDENCE

A. Action Point Letters

PDREP provides letter templates for common correspondence at each level of access. For example, if the Action Point wants to document circumstances requiring an extension of the investigation period he can send the “Interim Reply to Screening Point” letter. The Correspondence history also records every movement and message relating to this PQDR. You should consult local policy for guidance on which letters may be applicable to a particular investigation.

1. Click the Action Point Letters link beneath the Correspondence heading on the Screening Point Data Entry base page (See Figure 3.7).
2. The PQDR Correspondence form displays (See Figure 3.17).

B. Send Agency Action Notice to GIDEP

1. Government Industry Reporting Program (GIDEP) reporting is required for issues reported on a PQDR that might affect other US Federal Government Agencies. GIDEP reporting is done using GIDEP’s Agency Action Notice (For Government Use Only) to notify Non-DoD federal agencies about material quality issues. To send a GIDEP Agency Action Notice, click the Send Agency Action Notice to GIDEP” link under the Correspondence header on the Action Point web page (See Figure 3.7).

2. PDREP then validates that the investigation results have been entered and that all codes entered on the PQDR meet the criteria for a record that GIDEP will accept. A warning will be provided if any codes do not meet the GIDEP reporting criteria (See Figure 3.18). Use the “Complete Action Point Investigation” link to complete or correct any codes, if the record must be sent to GIDEP (See Figure 3.7).
3. Once the investigation results are fully completed and the PQDR passes validation as being eligible for reporting to GIDEP, you’ll be navigated to the GIDEP- Create Agency Action Notice web page (See Figure 3.19). The Agency Action notice is completely auto filled with data from the PQDR. You may change any prefilled data if you desire. When you’re done editing the Agency Action Notice (AAN), clicking the Send button will forward an electronic copy of the AAN and complete copy of the SF368 to GIDEP. Click the Print button to retain a paper copy of the AAN. Click the Cancel button to exit the webpage without sending to GIDEP.
4. After sending the AAN you’ll be prompted with the following webpage to confirm the transmission (See Figure 3.20). Read the note carefully as it explains GIDEPs process for adding you’re submitted AAN into their information system and returning a confirmation Agency Action Notice Serial Number.
5. A review the PQDR history will show a GIDEP transmission and subsequently a returned Agency Action Notice Serial Number to confirm that GIDEP added your submission to their database. See Figure 3.21 of the history entries made by the system when sending and receiving GIDEP Agency Action notices.

<table>

</tr>
</tbody>
</table>

Figure 3.21

**NOTE:** PDREP does not store GIDEP Agency Acton Notice until GIDEP has returned the Agency Action Notice Serial Number, at which time the GIDEP Agency Action Notice is added to PDREP's database.

6. To view a GIDEP AAN, click the GIDEP Search link on the Main Menu (See Figure 3.22). You’ll be navigated to the GIDEP Search page (See Figure 3.23). Here you can search by partial AAN serial number, a Submitting Agency DoDAAC, or by CAGE. The results will appear below the Search criteria you entered. Clicking the link under the Serial Number column returns a view of the data returned by GIDEP and now stored in PDREP (See Figure 3.24).
### Figure 3.22

**GIDEP Search**

- **Instructions**
  1. To search existing records, enter **Parameter(s)** and click **Search**.
  2. To view a specific record, click on the **Serial Number** link.

NOTE: If there are any questions about GIDEP Data of any kind, please consult GIDEP at http://www.gidep.org/.

3.9 RELEASE PQDR

A. Forward to Screening Point for Closing

1. When the investigation is complete, with or without non-Army Action Point and/or Support Point participation, this function will return the PQDR to the Screening level for closure. If the PQDR was routed from an Army Screening Point (Sub-Screener) it will be routed back through that Screening Point prior to routing to the Master Screener for closure. All mandatory investigation result fields must be completed in order to use this function.

2. From the Action Officer Data Entry page, click the Forward to Screener for Closing link.

3. The Forward PQDR from Action Point to Screening Point form displays (See Figure 3.25).
4. The Army Screening activity and e-mail address will be pre-populated and not editable, based on previous routing.

5. **Send Copy**: If you wish to add CC addresses then you may either type them into the CC: box and click “Add CC” (this must be done one address at a time) or use the “Show Add CC List” button to display a lookup of existing PDREP users by activity.

6. **Message Box**: Once you have chosen your recipients, enter any desired message into the Message box.
7. Unless otherwise directed you should accept the defaults for Attach PQDR Info: (defaults to Yes) and Send in format (defaults to SF368).

8. Forward PQDR: Click “Forward PQDR” to complete the forwarding action and to release the PQDR to the Action Point. Click “Cancel” to cancel this action.

B. Assign to Action Point

The Action Officer has the option to redirect the PQDR to an Action Point outside of Army if they determine that the PQDR should be investigated by another Agency (i.e., DLA, USMC, etc…) or assign to an Army Action Point.

NOTE: In all cases the PQDR will be routed back to the Army Action Officer to review the investigation.

1. From the Action Officer Data Entry base page, click the Assign to Action Point link (See Figure 3.7). The Forward PQDR from Action Point to another Action Point Activity will display form (See Figure 3.26).
2. Choose the activity (DoDAAC) of the individual Action Point.

3. Army Action Point- if you are forwarding to an Army Action Point for investigation the process is the same. You may choose the user if you know who will be working the investigation.

4. If the desired recipient Activity does not currently have a user in PDREP, the Action Officer can still forward the record by selecting “Other DoDAAC” at the bottom of the Activity list and entering the DoDAAC and email of the recipient. However, the recipient will not be able to access the record until they get a PDREP account.

5. Once the Action Point Activity has been selected, the Choose Action Point E-mail Address selection box will display beneath the Activity (See Figure 3.27).

![Figure 3.27](image)

6. The system will default to the primary Action Point for each activity. If redirecting to another activity, it is usually best to accept the default rather than selecting an individual Action Point. This is necessary so that the Action Point for the activity can review and appropriately assign the PQDR.

7. Use one of the following two methods for adding a CC address.
   i. Click the Show Add CC List button. The Choose CC Activity selection box will display (See Figure 3.28).
iii. The Choose CC User selection box will display.
iv. Click the user to CC from the Choose CC User list to highlight the selection.
v. Click the Add CC button.
vi. The email address will be added to a Selected CC Addresses table that displays after the selection has been made.
vii. Alternatively, type the email address directly into the CC box.
viii. Click the Add CC Button
ix. The address will be added directly to the Selected CC Addresses table

8. Once you have chosen your recipients, enter any desired message into the Message box.

9. Unless otherwise directed, accept the defaults for Attach PQDR Info (defaults to Yes) and Send in format (defaults to SF368).

10. Click “Forward PQDR” to complete the forwarding action and release the PQDR to the Screening Point.

11. Click the “Cancel” button to cancel this action.
C. **Non-Army Action Point**

When the Army Action Officer forwards a PQDR to a Non-Army Action Point the following will apply:

1. Once the PQDR is forwarded to the Non-Army Action Point the system will trigger a second location on the Army screen (See **Figure 3.29**). One for the DoD level and one for the Army process.

![Figure 3.29](image)

2. Action Officer Data Entry page will show two locations of the PQDR. The DoD level will show Action Point from Screening Point, or when returned to the Action Point it will show Screening Point from Action Point; in these cases the Army is working at the DoD Screening Point level. PDREP has added the “Army Location of PQDR” to show where in the Army process the PQDR is. Since the Army process is to have all PQDRs process through a Master Screener and Action Officer, PDREP has added these levels for Army only.
D. **Forward to Support Point**

If you have determined that an investigation should be conducted by a Support Point activity, then this function will complete the forwarding action. This functions in the same manner as the “Assign to Action Point” documented in Section 3B.

**NOTE:** *In all cases the PQDR will be routed back to the Army Action Officer to review the investigation.*

E. **Forward to Government Repair Facility for Support**

If you have determined that a Government Repair Facility will support the investigation, then this function will complete the forwarding action.

**NOTE:** *This requires that a Last Rework Activity is specified on the “View/Edit Action Point Data” page as previously discussed. In all cases the PQDR will be routed back to the Army Action Officer to review the investigation. This functions in the same manner as the “Assign to Non-Army Action Point” documented above.*

F. **Incorrect Recipient – Return to Screener**

This function should be used if the PQDR was forwarded to the wrong Action Officer. This function may also be used if the PQDR was unintentionally released to the Action Officer and needs to be returned to the Screener’s control. This functions in the same manner as the other forwarding actions but with the Screener’s activity and e-mail address pre-populated and not editable.

3.10 **SEND MESSAGE TO**

The available recipients in this section will vary according to the level to which the PQDR has been previously forwarded. For example, upon receipt by the Screening Point the available links would be Originator for direct messages to the PQDR Originator or “Other” for all other recipients. The page that displays is nearly identical to the forwarding page previously discussed and the same conventions should be followed. After forwarding, the available recipient links may include “Action”, “Support”, etc.

**NOTE:** *The primary benefit of using the messaging features of PDREP is tracking of correspondence in PQDR History. All PQDR correspondence generated from within PDREP will be captured in history and therefore provides a comprehensive audit trail.*
3.11 SESSION TRACKING
Session tracking maintains a record of all PQDRs viewed during the current login session. It also allows the User to quickly switch between records by selecting the linked RCN.

3.12 REBUT PQDR

NOTE: These two options are only seen when the record has been returned to the Action Officer for review of the investigation results.

A. Rebut the Action Point Decision
If a record has been forwarded to an Action Point for investigation, and then returned to the Action Officer, a link to Rebut is displayed. Selecting this option allows the Action Officer to return the PQDR to the Action Point for further processing. This functions in the same manner as the other forwarding actions but with the Action Point’s activity and e-mail address pre-populated and not editable.

NOTE: Currently DLA does not accept PQDR updates, so DLA will have to be informed via email or telephone if a PQDR is rebutted to them.

B. Rebut the Support Point Decision
If a record has been forwarded to a Support Point, and is then returned to the Action Officer, a link to Rebut is displayed. Selecting this option allows the Action Officer to return the PQDR to the Support Point for further processing. This functions in the same manner as the other forwarding actions but with the Support Point’s activity and e-mail address pre-populated and not editable.

NOTE: See local policy on rebut guidance.

4 OTHER PQDR BASE PAGE FEATURES

4.1 QUICK VIEWS
The links in the Quick Views section of the PQDR Base Page provide a way to quickly review the various forms associated with a PQDR as follows:

A. View SF-368 (HTML): Displays the SF-368 form in a new window as web-formatted text. This is the quickest way to retrieve an SF-368 for review but may not be suitable for printing.

B. View SF-368 (PDF): Displays the SF-368 form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper SF-368 form and is suitable for printing.
C. **View 1227 (HTML):** This link is only available to non-SUPPORT POINT activities after a SUPPORT POINT investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as web-formatted text. This is the quickest way to retrieve a 1227 for review but may not be suitable for printing. This form is visible to SUPPORT POINT users while the investigation is still in progress at the SUPPORT POINT level.

D. **View 1227 (PDF):** This link is only available to non-SUPPORT POINT activities after a SUPPORT POINT investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper 1227 form and is suitable for printing. This form is visible to SUPPORT POINT users while the investigation is still in progress at the SUPPORT POINT level.

E. **View Exhibit Tag:** Displays a DD2332 exhibit tag form for attachment to an exhibit to the PQDR investigation if desired.

F. **View Points of Contact:** Displays all points of contact assigned to date who may be participating in the PQDR investigation. This will include the Originator, Screening, Action and Support Point individuals as well as any Government, Contractor, Subcontractor and Shipper investigators assigned.

G. **History:** Displays a comprehensive history of all forwarding actions and correspondence to date for the subject PQDR. The text of all e-mail messages will display on the History page, and a link is provided to any formal letter correspondence sent from PDREP so that the correspondence can be reviewed and reprinted if needed.

### 4.2 ATTACHMENTS

Files of various types that support the PQDR or the investigation can be attached to a PQDR in PDREP.

Click the View/Upload files link to see any files that have been attached to the PQDR to date (See Figure 5.1). The number of currently attached files will appear in parentheses. To attach new files, click the View/Upload Files link and then click Add Attachments and follow the instructions on the page. The maximum file size for any single attachment is 10 megabytes. To remove a selected attachment from the list of correspondence use control “click of the mouse”.

### 4.3 DD FORM 1348

A DD Form 1348 may be created for a PQDR by clicking the Create DD-1348 link on the left side of the PQDR. If a 1348 was already created it can also be retrieved, edited and deleted using the DD-1348 link.

### 4.4 EXHIBIT TRACKING

The shipment and receipt of exhibits associated with the PQDR investigation can be tracked here. Click the Exhibit Tracking link and follow the instructions on the page if you wish to track exhibits.
For ARMY: ADD/UPDATE SHIPMENT TRACKING link is only available to Action Point/Action Officer to the assigned user or Action Officer which has management access to the assigned Activity.

4.5 USER INFORMATION

Hover your mouse pointer over the User Profile link located on the upper right portion of the screen and a list of sub-links for the User profile will appear. Selecting any of the sub-links will allow the user to go directly to that page within the User Profile.

5 ACTION POINT CLOSING ACTIONS

Upon completion of the PQDR investigation the Action Point will review and/or enter closing codes and investigation results and return the PQDR to the Screener for closure. If a Non-Army or Army Action Point and/or Support Point investigation was conducted then the codes will be pre-populated for the Action Point to review, edit or supplement as necessary. The Support Point (if participating) will return a comprehensive Report of the PQDR Investigation on a DLA-1227 form and the Action Point will base the PQDR investigation results narrative on this input.

5.1 ACCESSING THE CLOSING ACTIONS

Click on “Complete Action Point Investigation” (See Figure 5.1) and the Complete Action Point Investigation page will display (See Figures 5.2 thru 5.4).

5.2 CLOSING ACTION DATA FIELDS

Fields in the interface are described below.

A. **Deficiency Responsibility Code:** Identifies the party found responsible for the deficiency. Vendor or contractor liability is indicated solely by the code of “A-PRIVATE CONTRACTOR”. All other codes indicate some degree of government liability or that the responsibility is unknown.

B. **Cause Code:** This code should correspond with the broad cause of the deficiency.

C. **Preventive Action Code:** If the contractor’s response included preventive action, was the preventive action satisfactory to the government investigator?
D. **Corrective Action Code:** Identifies the corrective action taken by the contractor and/or government investigators.

E. **Defect Verified Ind:** Was the defect verified by the government investigator?

F. **Cost Code:** This code should identify the party who will bear the cost of the deficiency.

G. **Credit Code:** Identifies whether fiscal credit is granted to the Originator.

H. **DLA Credit Code (DLA only):** Optionally identifies any credit action initiated by DLA if the deficient item was DLA managed.

I. **Investigation Results:** The narrative here should provide a comprehensive set of findings from any investigation conducted. It is supplied by the Action Point but can be edited by the Screener.

J. **Results of Depot Surveillance:** Used by Navy when a stock screen or depot surveillance was initiated as a result of this PQDR.

K. **Alert Notification and Narrative:** Used by Navy to recommend to the Naval Inventory Control Point (NAVSUPWSS) that the deficiency be reported on the monthly Defective Material Summary.

L. **NAVSUP Disposition Code and Narrative:** This code and the supporting narrative are used for PQDRs where NAVSUP is the Action Point.

6 **SUMMARY**

This concludes the PQDR submission instructions for PQDR Originators. The PDREP Customer Support Desk is available to answer additional questions or to assist in data changes or exception processing and can be contacted as follows:

- E-Mail: webptsmh@navy.mil
- Commercial: (207) 438-1690
- DSN: 684-1690
- Fax: (207) 438-6535
