PDREP Publish – 16 May, 2015
The following CSRs are included in release Version: 5.0.21

FEEDBACK S/N	AFFECTED PROGRAM	TITLE	CHANGE NARRATIVE
1300277	PDREP	Administrator Access Privilege	Creates additional management level of access control to display the 'IT Admin' link only when an IT administrator has access granted by the database administrator.
1301086	SDR	Ability to print SDR	Display SDR as one page with the ability to print
1400019	PQDR	Other DoDAAC Function	This removes "OTHER DoDAAC" function in the PQDR Drop Down List. When this was used, PQDRs were sent users without PDREP accounts (USER ID XXXXXX), leaving these PQDRs in limbo.
1400691	Feedback	Spell Check	Adds spell check capability to the Feedback data entry web pages.
1400696	EZPDR	Spell Check	Corrects spell check issues while using EZSDR, EZPQDR, and EZMIR data entry web pages.
1400835	PQDR	PQDR - User Profile Link	This removes the USER PROFILE" link from the left side of the PQDR base pages. This can now be accessed via user profile name link at the top right of all PDREP web pages.
1400856	PQDR	Oracle Error ORA-02291: Integrity Constraint	This eliminates a database error when trying to add certain correspondence codes to the PQDR History table. No noticeable change to users.
1400863	PQDR	Exhibit Tracking - Fund Code	This expands the Fund Code field to 3 characters on the Exhibit Tracking web page, to accommodate Army TAC codes.
1400871	CAR	Date Display	Corrects the date display in the CAR Etools results, adds count and spreadsheet down load, standardizes the web page into PDREP results format.
1400923	Survey	Save and Add Attachment	Change the Save & Add Attachment Link to a Button on the Add/Edit form
1400988	PQDR	842P Current Exhibit Disposition Codes	This limits the PQDR Current Exhibit Disposition codes in the Drop Down List to the codes listed in the 842PADC1007c, Table AP7.27.27.5.
1401098	Search	Search on '&' symbol	The '&' character is now a searchable e character in the CAGE search tool. Their CAGEs that use the '&' in their name.
1401259	PDREP	QPL Search	Adds a Qualified Products List (QPL) Search to the Main Menu
1401261	PQDR	Store User Information Instead of Account Name	For Army group accounts only, when PQDRs are assigned to a group account, and the PQDR is acknowledged by an individual user, the POC information (Name, E-Mail Address, Phone Number) is changed to reflect the individual and not the group. The USERID remains the group account so the record will not show up on the individual's worklist.
1401319	Feedback	Admin Module	Corrects the Submit Feedback link navigation in the Admin Module. Also, removes the Feedback Report link in the Admin Module.
1401328	Feedback	Search Results	Corrects issue when searching by filtering on the Reporting DoDAAC within the Feedback Module.
1401491	SDR	SDR closing date	SDR closing date can only be put in once SDR has been submitted
1401515	Search	Search Results	Standardizes the Bulletin and GIDEP search results to include a spreadsheet download and count.
1401517	PQDR	Interim Reply Correspondence Letter Error	This eliminates database error prohibiting users with more than 6 characters in their USERID from creating interim reply message and other correspondences.
1500047	PQDR	Eliminate Cone PQDR Fields	This removes select fields from being cloned during the cloning process that prohibits users from advancing draft PQDRs. Some of the data fields are: added activity, added date, army master screener/screening point (DoDAAC, user id, etc.), major command.

1500059	PQDR	Add Vendor/MFG CAGE to Worklist Page	This adds both Vendor CAGE and Manufacture CAGE to the standard worklist display so that both are displayed.
1500066	QALI/LOD	QALI/LOD Correspondence	This will only allow the email being send through the QALI/LOD module to be sent to the Delegatee
1500087	PDREP	PDREP Beta Error Log - Date Fields	This creates a validation in numerous places across the PQDR module for date fields when there is a calendar button next to the field such that the format must be MM/DD/YYYY.
1500100	PDREP	Apostrophe in user name	Permits apostrophe to be saved in name and propagated to all PDREP-AIS applications from user profile.
1500109	PQDR	Support Point Exhibit Tracking Cancel Problem	This corrects an error on the Support Point Exhibit Detail page when saved and a validation error occurs and the user then cancels. All of the other new information is saved without user verification.
1500147	PQDR	Remove Screening Point Access to Originator Page	This does not allow Screening Point access to Originator page unless they have Originator privileges at the assigned DoDAAC.
1500160	MIR	MIR to PQDR Manufacturer's CAGE	Revised MIR to PQDR data transfer so both the Manufacture and Vendor CAGE codes are transferred from a MIR to the associated PQDR
1500173	Feedback	Search Admin	Provides administrators ability to view and edit assigned Feedback Reports.
1500186	PDREP	Automated SQL record Keys	Permits administrators to change the record key on Automated SQLs.
1500227	PQDR	PQDR NIIN Search Excel Data Download Error	For PQDR NIIN/Contract search, the Cause Code, Corrective Action Taken Code, and defect Verified Code displays correctly on the screen. These are omitted during the excel download process. This adds those codes back into the spreadsheet.
1500228	SDR	SDR Disposition Codes	Add code to prevent save methods from being called twice.
1500263	SDR	Stop form from jumping to top	Stop form from jumping to the top after selecting append or add codes.
1500267	MIR	MIR: Used in PPIRS	Removed the "Used in PPIRS" indicator from the MIR ADD/EDIT web pages and views
1500287	Test	Test Report Search Changes	Add NIIN as search field, and NIIN, CAGE, and Final Disposition to the Search results
1500310	PQDR	Rebuttal Code Correspondence Drop-Off	This adds the correspondence verbiage back into the PQDR History page when rebutting a PQDR as this was inadvertently removed with the implementation of adding the rebuttal code and literal in the previous publish.
1500311	PQDR	842P - Remove "Retract PQDR" from Originator Page	This removes the "Retract PQDR" function from the originator page, as this is not an approved transaction in 842P.
1500312	PDREP	Date Validations	Updates the date validation to Rec Options, GIDEP Search and Material Profile.
1500315	PQDR	842P - Screening Point Redirect to New DoDAAC	This changes the current single link re-assign within/other Screening Point' into two distinct links: Redirect to an External DoDAAC and Reassign/Transfer to new POC within DoDAAC. The re-direct link will require a new acknowledgement and is only available while at that location Screening Point from Originator. The reassign link will be available at any time as long as the PQDR is Active and not at draft status. This will send an update transaction only and not require another acknowledgement.
1500316	PQDR	842P - Action Point Reassign	This renames "Assign to Another Action Point Activity" as "Redirect to an External DoDAAC", and renames "Re-assign within Action Point Activity" as "Reassign/Transfer to new POC within DoDAAC". Similar to the Screening Point CSR re-direct link will require a new acknowledgement and is only available while at that location Action Point from Screening Point. The reassign link will be available at any time as long as the PQDR is Active and not at draft status or Screening Point from Originator. This will send an update transaction only and not require another acknowledgement.
1500317	PDREP	IUID API	Updates the IUID application program interface for retrieving UII data from the DoD registry.
1500361	CAD	CAD: Contract Order Number	Added a field for the Contract Order Number and revised the search results column heading
1500376	RIMS	Revisions Not Updating Record	Updated the date and user code when a record is revised.
1500377	MIR	MIR Attachments	Attachments can now be viewed on the MIR Serial Number View

1500392	RIMS	Stand Alone RIDL Report (SARIDL) Description Missing From Reports	Displayed Product Description (block 5A) SARIDL.
1500395	MIR	MIR: View/Print	Removed the "View/Print" link option received after searching for existing MIRs
1500406	RIMS	Receipt Inspection Deficiency Log (RIDL) Requiring Action Screen Query	Saved query search parameters on RIDL requiring action screen after navigating to a record and then back from search screen.
1500421	RIMS	Remarks Report Display Order	Remarks Report sorted the results in descending order of date signed.
1500429	PQDR	Parent/Child Vendor/Manufacturer CAGE Change	This updates the Parent/Child instruction on the Action Point page to indicate the Vendor CAGE must match.
1500430	PQDR	Reject EZ PQDR - Remove Incorrect Recipient Link	This closes a loophole where an EZ PQDR can be rejected (canceled), then re-opened, and be sent back "incorrect recipient to the originator, which leaves the PQDR in limbo.
1500444	RIMS	Stand Alone RIDL Report (SARIDL) vs. Material Inspection Record (MIR) - Adhoc Search	Added dropdown box to the Adhoc tab to select between a SARIDL and a MIR RIDL.
1500446	RIMS	Material Designator Field Length on RFI (Ready For Inspection)Tag	Increased the size of the material designator field from three to six characters when creating a blank RFI tag.
1500448	RIMS	Adding attachments to completed records	Added the ability to add attachments to completed/locked records for Nuclear users only. Did not allow deleting any attachments after record is completed / locked.
1500449	RIMS	Duplicate Document Number Check	Checked prior to looking for matching MAT data if document number already exists when user clicks save on the create new record screen and display the following error message if yes: "Duplicate Document Number Entered". Do not restrict entering a duplicate number if user so chooses.
1500458	PQDR	Create PQDR Requisition FSC/NIIN Mismatch Error	This creates an error message on the initial Create PQDR, and does not advance to the blocks 1-21 page with updated information, if the user entered NIIN or FSC does not match each other or the Requisition FSC/NIIN in lieu of having the Requisition information override information supplied by the user.
1500465	RIMS	User Access Request Form - Nuc RIMS	Added dropdown selection for nuclear access (Yes/No) to RIMS section of user access request form.
1500468	Ad Hoc	Updated Nomenclature/labels	Update the Ad Hoc modules to use the term 'Ad Hoc' vice 'ADHOC'.
1500471	RIMS	Added Blank Option Code	Added functionality to make action code blank when the supervisor review block is signed. Also added blank option to the dropdown list of action codes.
1500488	RIMS	Worklist Description Column	Added column to include the short material description (block 14 A) on the worklist screen.
1500497	RIMS	Multiple Users Accessing a Record	Removed ability to edit a record by clicking and then cancelling out of either the add attachments or remarks screens that is currently locked by another user.
1500505	SQD	Save and Add Attachment	Changed the Save & Add Attachment Link to a Button on the Add/Edit form
1500508	PDREP	SQL Tracking	Adds a tracking Log to track SQLs run and
1500514	Mobile App	PQDR UII Submission	Updates interface connection to permits submission of PQDR for UII from a hand held device.
1500518	RIMS	Contract Numbers Ending in "R"	Added display of "R" as the last character of a contract number on MIR or RIDL reports.
1500540	RIMS	Duplicate Document Number - Priority Screen	Checked if document number already exists when user clicks save on the priority screen and display the following error message if yes: "This Document Number already exists. Click Go to Priority to retrieve the existing record".
